DETAILED ACTION

Response to Arguments

Applicant's arguments filed 10/02/2006 have been fully considered but they are not persuasive.

Applicant arguments filed with respect to claim 1 have been fully considered but they are not persuasive. Applicant argues that the tissue dispenser of Angemeir does not disclose its use with a cupholder comprising side support. However the term cupholder is still treated with its broadest definition and Angemeir could be used on a desk or book shelf with books or other weighted objects supporting the backside of the dispenser and atop the adapter panels which would prevent the dispenser from lifting or shifting side to side. For the foregoing reasons claim 1 stands rejected.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 16, 19 and 26 rejected under 35 U.S.C. 102(b) as being anticipated by Angermeir USPN D374,360.

(Re claim 1) “a package containing at least one disposable article” (title). “the package comprising a top, a bottom, and a non-circular sidewall” (figure 1). “Means for adapting the package to either fit into or be attached to a vehicle cup holder”

(description of figure 6). Wherein the cup holder is a large flat surface. "means for adapting comprises a fifth panel" (description of figure 6).

(Re claim 16) "fifth panel comprises an adaptor member" (description of figure 6).

(Re claim 19) "fifth panel is attached to the bottom" (figure 6).

(Re claim 26 dependent on claims 1 and 16) "package comprises a carton the sidewall comprises four generally rectangular panels, a dispensing opening is located in the top, and the disposable article comprises a paper product" (figure 6 and title).

Allowable Subject Matter

Claims 17,18 and 22-26 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
